CAT THERMOMETER

TL968 Cat Thermometer, 13.5" long

Thin White and paint entire cat. Mix Shadow Gray with White to lighten. Thin some of mix and stipple into shadow areas. Fade shadow color at edges. Mix Electric Blue with Crimson for a deep purple on a palette. Pour some Hot Pink and Royal Purple on palette also. Using these colors and a wet brush, stipple into shadow and detail. Use more water to stipple edges into body of cat. Using a dry-brush, pounce White onto cat, avoiding shadows, letting color come through the White to make cat look "fuzzy".

Paint nose and tongue with slightly thinned Crimson. Outline whiskers and lines with the mix of Crimson and Electric Blue. Outline fur lines with a double outline.

Place mark on glass thermometer at 70 degree mark on the piece.

HORSE POT
